

Job Description - Project Manager

About auctusESG

At auctusESG, we work at the intersection of finance, policy, and markets to help mobilise capital for climate action. Over the past six years, we have delivered 44 projects across 25 geographies - advising governments, regulators, financial institutions, and development partners on sustainable finance, labelled bond issuances, decarbonisation and climate risk. Our clients are based across APAC, Africa, Europe and Latin America.

Location: Mumbai

Experience

- 4–7 years experience

What you will bring

- A master's in Public Policy, Economics, Environmental / Sustainability studies (additional professional qualifications a plus)
- Experience in climate, environment or sustainability-related fields
- Experience in climate or sustainable finance (preferred)
- Prior experience working in impact consulting firms or financial institutions (preferred)
- Strong research, analytical and presentation skills
- Previous project experiences with foreign DFIs, MDBs, development agencies or multilaterals (preferred)

If you are driven to turn climate ambition into investable outcomes, we would love to hear from you
